

This is a close up of what BLM stated in the 2003 EIS that the “management boundaries” of the Nevada Wild Horse Range were before they changed them with the new proposed plan approved in 2004.

**Figure 1-1**

This is map of the “new core management area” indicated by the yellow line approved in 2004.

**Figure 2-1**

This is the map of wild horse populations and historical use areas as noted in 1972 and 1974. The little blue circles are water sources while all the triangles and squares were population counts.
